I will analyze an article in which several things are commented on the subject of the extraterrestrial phenomenon. We extract the information and teaching from Robert's Direct, sticking to what is pure disclosure. In this transcript, the greetings to the attendees and some non-relevant questions on the subject are ignored. - Toni Ruiz.

ROBERT, PRESENTATION

Hello, friends? Welcome once again to the Cosmic Revelation Starseeds channel. Today's live is to chat with the fans, with the "friends." You already know that social networks are not there to make friends, but hey, I have put "friends"... I'm here to talk with you and have a happy Monday afternoon, and that's it. I am very transparent, you see...

We are going to greet people... (Robert greets several people and lists various statistics of this channel, countries, gender, age group, etc.) The other day Gosia did a live show, with whom I get along very well. Rumors have come out that we are fighting, or something, or if this is a competition... No, I do not compete, precisely today I made a voice recording for the video that is going to be uploaded about Yázhí's conversation about Time, that Time is not something external to you, but something of your own, so... There is no strange story, I mean... it's amazing! Then you have no choice but to get away from people, because some amazing stories are invented, you cannot imagine them.

I have my way of speaking and expressing myself, and... I don't know, I don't know... People speak and express themselves in many ways. Like other people, my way of speaking may seem very harsh (makes a surprised gesture), but when I was in Barcelona everyone spoke like that, I

can seem harsh (smiles), but everyone talks like that, it's just that I do not get it. There are also people who say: But hey, why don't you do a gathering or something? Let's see, Gosia is working up to here, working (he puts his right hand to his head), and I'm up to here too. It would be necessary to look for some moment, but the thing is ...

We are up to here on work. We are making videos, videos and videos... By the way I have to empty my computer because I have it full, the videos that I make take up a lot of space on the hard disk, a lot of space, because they are not just images, they are videos with videos included, And it's mind-boggling how much space all of this takes up. (Robert reads the names of some of the chat participants and continues)

The only thing that Gosia knew our friend Matías and it is logical... Oysters! Let's see if you know someone and you like it, it is logical that you are going to live with him, it is logical, right? So she and Matías decided to move in together, so, of course, her house is not here next door and that is a bummer, you have to go far

...Let's see, for example, here in Finland the houses are very good and they are very nice. You find things at very good prices, and I'll tell you about the area I know. In Catalonia (Spain) houses at the price of the ones here I have not seen. Not even in ruins I have seen them at this price here. It's another story... I like this here, it's very beautiful, the air is very fresh, now the sun is starting to rise, but the air is fresh, it's amazing.

Another person asked me how much fluoride is in the water (Robert pours a glass of water from a jug) I don't know, I don't know, but I think not much, if it doesn't take anything, because I think In Europe there are countries that do not add fluoride to their water. Ay! They do not add fluoride, there are people here who take the water directly from the spring, what happens is that they have not told me where this spring is, but what they have told me is that if you go to that spring the water will always go to look there, and obviously no one puts fluoride in that spring. There is water everywhere here.

(Robert looks back at the chat and again provides statistical data of the videos uploaded on this channel) A follower asks, are the children born now seeds?

Robert.- As it happens, I've seen a video out there, I'm not going to say who, who talked about how children who were born now were something strange, let's see what the question says? I think so, all of them? I would say yes, yes, yes... I am not against anyone, I think so, do I have evidence? No, but I think so, and it is true that since I don't know what year... that is, as far as I know there have been three waves of seeds, three. The last one was the strongest of all, that's true, yes, yes, yes. And now these that are born now, are they another wave or are they from the last? I don't know, but there are more and more yes. Yes that is true, what does the future hold for them? The future for these children is what the parents do. If parents delegate everything to politicians, what we can do is turn off the lights at the beach bar and let's go. So let's see what the parents do, if the parents are under the fig tree, the future for those starseeds will be blacker than... It will be black. But I say yes. Yes, you have to be very brave to embody now, I mean it.

(Responds to a follower) I wouldn't like to make a child at all, not at all. Today I see very strange things, for example I have seen the video of a boy who is in Germany and explained that he had to go to cut his hair, and in Germany to enter the hairdresser he had to enter with a bracelet that lasts 24 hours and it says that he tested negative (to the bug), that he was fine and could enter, but it only lasted 24 hours, obviously for the bracelet to indicate that it has nothing you have to put the swab up your nose. Then imagine, I don't see this well. It turns out that the boy in the end has come in to cut his hair and they have not asked him, but the hairdresser has seen the bracelet and it has not passed the detector, because it has these square codes. Amazing, I don't like to talk about this topic.

(Responds to a follower) Yes of course man, fluoride is used to kill rats. When I say: does humanity have something in mind? I am serious, humanity is losing its memory, and it is based on many things, things that they "put" in the air (chemtrails, note of the t.), And things that are in the water, then this thing that they are doing it is affecting your brain, it is affecting it. People who do not have their own criteria, people who do not know how to discern things, people who believe things without analyzing them, without wondering why that person says those things and how they say them... It's amazing... I see things that you say Damn! It is very strong.

Question from a follower.- In what times did the waves come?

Robert.- If I remember correctly, I think there was one in the... they are very recent, very recent, well, very recent... I think there have been 3, the first with very few people, I don't know if it was... But let's see something, the story is that there have always been starseeds, always, as many as now? No, but they have always been there. I don't know if the first one was in the 70s or 80s, then, I think there is another, I don't know when, I have it written down there, I know that there is another one that came in the year 2,000, yes it is true, in the year 2,000, and I don't know, 3 or 4. This, I say, would be number 4, because there are already many. But hey, and so on, I don't know if you knew that there are many premature abortions today, didn't you know, right? A lot of them. So I don't know, I would have to look at it. Talk from memory and speculate, no. Ah! See how they remember. (Robert points to his screen) The first could be in 1958, but very few, that is, they entered, but few, and then little by little, yes, yes, it can be.

Comment from a follower.- Robert, people see bad vibes in others and do not realize that this disclosure is another story that has nothing to do with low vibrations.

Robert.- Exactly, we have already said it: You are the creator of your reality, and what you reflect in the external world is your internal world, that is, if you see strange things, it is because you are seeing them within yourself. There is a mirror here huh? When you start to insult, to disqualify, to lower the vibration, it is because all that is within you, that is why you should first do the internal work, and that internal work will be reflected on the outside, in the outside world.

Comment from a follower.- A woman put on the "triki, triki" (*SM: sorry but I have no idea what this means, maybe code for the covid jab?*), because her company... she was pregnant and the fetus died.

Robert.- Yes, it is not a good time to be born, no. And there are people who... what are we going to do, they have come to the world and we are going to see, but that it is not a good time to bring children, it is not a good time, and more with what one knows. There are many people who have children because they think like, look, what I'm going to say now is not a lie. There are people who have children, because they say, well, I'll go and leave something here on Earth. Man, well that is having a very strong attachment to the Earth, that is, I will go and leave something of mine here on Earth. Come on, you are not going to leave, you are going to dis-incarnate and you are going to re-enter with that mentality again here, and calm down that you will see how you stay here. There are people who go with that mentality. If you don't have children, nothing happens, you have your star family outside. You are not your body, and biological life mostly it's out of here.

Comment from a follower.- People want to perpetuate themselves through their children.

Robert.- Yes, yes. In other words, it is amazing. Perpetuate themselves through the children, as they have the same blood or I don't know what... But if you are not this body, you are out! What a

mania, what a mania... All this is instilled through the collective unconscious. This is produced by the collective unconscious.

Comment from a follower.- Fluoride, they say, calcifies the pineal gland and kills our spirituality.

Robert.- Man, I don't know if it kills spirituality, I don't know if it kills it, but what it does is that you disconnect little by little and you become a zombie, because as we said yesterday, if you leave this body, it follows us dominating, as if you were a puppet, a memory that is in the Ether, or something like that. That's what I understood yesterday, organic portal type thing. It's strong, huh?

Comment from a follower. If they come now it is because something is going to happen and they want to experience it.

Robert.- I don't know, you really have to be a masochist, what is going to happen? I don't know, I don't know what's going to happen. Is there going to be a planetary reset? I would say yes. Is it necessary for people to die for a reset? It is usually tied together, but someone does not necessarily have to die. Is there going to be a planetary ascension? I would say yes. There will be, no, in fact a planetary ascension is already being seen... I am not saying no, but who is going to notice the planetary ascension? Those who are already awake. Look closely, there are people who say that you have to go to class, you have to study! No, no, wrong! Wrong again, no, because you can go to class and not find out about anything, and you can go for 5 or 6 minutes, pick up things and you have already found out more than one who has been there all day. So it is that they take the educational system to high levels, it does not work like that. Things don't work like that outside, no, no, no. Here no one is going to examine you, the only examiner is going to be yourself. You yourself at your level of consciousness will say, because I do have the high frequency. You will decide that yourself. No one will examine you, what is that? People want to put their pedagogy and what they do not know is that they are educated in the human way, because they are human, of course, if they are human in what way will they be educated? In human form. I know there are teachers here, and well there are all kinds of teachers, but you don't stick to the script so much either. I'm not saying it because of the people who are here, I'm saying it because of what I've heard out there that is amazing.

Question.- Robert, will those who survive the reset see the Planetary Association?

Robert.- Ah! Those who survive the reset, I would say... let's see, one thing is that I see that there are things that are not understood. You are going to see what you create (to create), because you are the creator, if you let yourself be influenced by the general current, because of what there is now at a general level, I from what I see, generalizing, yes there are people who it will save from reset, yes. Are you going to see a Holographic Society? I would say that, generalizing (I am not saying it for you) there are nuances here, it is what we are saying, you have to know how to focus, how to focus, but before you focus, you have to know that this exists.

The issue of ascension, obviously if you do not know anything, because you are not going to see anything, then it may be that it will drag you down by the law of the dominant frequency, it will drag you into the ravine. But there are other people who do not, who will know how to focus on other sites. What do you need to know? The basics, first: that you are the creator of all this reality. That there is no material world, everything is ideas. It is what defines a person, his ideas, not his body, his ideas. That is what defines a person. From there, that you are the creator (not Mr. Enki, I do not want problems) you have to know that the world is much more than what you perceive and see. There are many more things that you cannot see, and you do not see them because of your consciousness, because of your mental state; not knowing how to interpret many more things

because you cannot reflect them in your outer world. Now that you know more things, you can reflect in the outside world a number of things that could be other points of attention. From the outside you can see all those numbers (points to the moving frames in the illustration), because now you know that they exist, and you know that they exist because you are the creator. So here what is involved is that you focus on what you want, and what do you want? Be happy, live in a better world. I don't ask for many things either: to be happy! Being happy you have everything. So focus on what you want, it can be one of those numbers. The higher your mental state, the degree of manifesting things, such as happiness, is much faster. Focus on what you want! And that's what you will get. Don't get carried away by other stories. Focus on what you want, do not get lost in... yes, but they have told me that I have to study this, this, this and this, the names of this, this and this (Robert shakes his head) ! Focus on what you want, you are the creator, focus. This is like that child who likes botany, and in class they don't stop putting mathematical formulas into him, I don't know what formulas, lets say a lot of things that have nothing to do with botany, so you leave the child behind. So here what is said is focus on what you really want to see. Stop stories, focus on what you want and that's it, it's very simple.

Comment from a follower: Be happy and vibrate high. Robert.- Yes, yes, yes, it's very simple.

Question.- Do you know about the OPPT 1776 "One peoples public trust" To comment on it. Robert.- I don't know what that is. I'm going to find it. I do not know what it is. Are you talking about some free money? Look, about free money in Spain all the communities that have lowered (say) taxes. They say that taxes have been lowered, it would be necessary to see what communities they are, now they are asking for money from the central government of Spain. In other words, from what I see, giving money is not going to give it to anyone. And I say, why instead of giving money away, because I see that it costs to give money away, electricity, heating, internet, water are not given for free? Why not give all these things for free? Yes, yes, I say free because water, don't tell me about Chinese tales, water is something from nature... "Yes, but it has to be filtered" Yes, then don't get it dirty, I don't dirty it, I don't get dirty, like other weird stories. And how not to make the water dirty? Well, give clean energy and all those stories. So, free water, free electricity... "No, but electricity happens with..." Well, let's see, stop the stories, Chinese tales and dead children. Stop stories.

I was working in an electric company, I don't know if you knew it, for many years, and one of the things they told me is: "Don't worry, the kilowatts are produced by themselves" So who are they kidding? A bit serious right? Or let them put solar panels on the roofs of the houses, because "The money given, usually comes poisoned" (Popular saying, note from T) Remember this. Roses always have thorns (Robert laughs). They never give anything for free, never, so what I was saying is that roses always have thorns, that is, forget about them giving you something (for nothing). Nobody is going to give you anything, and least of all politicians, who are the worst reflection of society, you know. By the way, you already know that Michio Kaku says that, I don't know if he, but that his descendants had a monkey brain, I'm not saying it (I'm not insulting him), he has a monkey brain. (We also have an emotional brain, like monkeys and social animals, but we understand time in a way that the rest... Michio Kaku, T. note) Well that's fine with me.

So, if you want to give money, it is very simple, just say that people do not have to pay taxes. It is done! It is very simple. "It is not that we are asking for money from the European Economic Community to be able to defray state expenses" Good, but as we know that we, the citizens, are not going to see a penny of it (five of the old Spanish pesetas, approximately 3 €. Note from T), then let's see one thing, let's not pay taxes until all the money that the European Economic Community has given them has been spent. It is very simple, very simple.

Here in Finland they say that part of the money they contribute to the European Economic Community they say goes to Spain, this was told to me by a person, and I told him: well, this is the

first news I have, it will be the secret of the politicians, I do not I knew that money from Finland was coming to Spain, first news. Awesome right? Well, he said it was going to Italy first and then to Spain (Robert laughs). Oh my God, how much chorizo for so little bread! They are not going to give anything away. Citizens have to do something else, because politicians... Forget about them. Well, about that article of the OPPT 1776 "One peoples public trust", I read that it talks about a doctor in law and member of a scientific committee of ATTAC Spain, Juan Hernández Viguera, who talks about a globalized financial casino. Multi-million dollar bank bailouts... I don't know, it's a video.

The biggest problem this society has is money, that's the biggest problem. No, no, citizens do not want money, and those who are economists who do not come to me with the roll, that without money it is impossible to live. That you, but ask that to those 400,000 races of human-like people that live around here, what happens that you are not going to ask because first, you do not even believe in extraterrestrial life. In other words, money is only used here on Earth! Wake up! So what you have to do is get rid of money! GET RID OF IT! Nothing happens, it's like here, at a certain time of the night there are no traffic lights, they don't work, and there are no accidents, NOT ONE! It is very simple, it is money, change of people's mentality. Not having people in a society of lack, lack, lack... I'm running out of water, I'm running out of I don't know what! Society has to give everything to you "And where do things come from?" Don't worry, they'll be out, you calm down, don't worry, what is left over is money.

When I was in Barcelona a year ago, and this is not a joke, I was walking around the city, ambulances kept passing by with their sirens on at midnight, without anyone inside, that is, come on, a state of panic Amazing. Well, I passed behind the Hospital Clínico de Barcelona, and I was surprised that there were many tables, yes, yes, in Barcelona city, many tables full of sandwiches for people to go to pick them up, full, full. Of course when you steal a lot, because the people are left with nothing. Yes, yes, they gave away food, well, I think they gave it away, I think they did give it away. But some super beastly tables for adults, in Barcelona city, we go to a movie. Forget everything they tell you about money, because this is all fraud. They are telling you, yes, yes, the money is going to come out next year, next year it will come, and then it's next year, but you keep paying the bank. To which you have not paid for three months, three months, I think, in Spain, three months, they take away your house and you are still in debt. Which they do not do here in Finland, especially in Russia.

By the way, I'm not in Siberia! They say I'm in Siberia. Here in Finland, by law, interest to the bank, if I'm not mistaken, it's 1% interest, 1% debt, not 1% debt plus interest and those stories that are made up. Here everything is very guarded. I repeat it again, this is not a corrupt country, and it shows. Here you see the snow plows, now they are removing the gravel, working at 3 in the morning everywhere, young people, they are super young, people in their 20s, it is amazing. And what I said, I'm not in Siberia. Am I in Siberia? I am not in Siberia. Well, thank you very much for being here and a big hug, I keep working, Ciao, Ciao.
